

The image shows a standard European energy label for a refrigerator. At the top left is the EU flag and the word "ENERG" in large letters, with "енергия · ενεργεια" below it. To the right are four small circles containing the letters Y, UA, IE, and IA. Below this is a small icon of a refrigerator and the model number "CH6T6226XGB".

The main part of the label features a vertical scale of energy efficiency classes from A+++ (top, green) to D (bottom, red). A black arrow points to the A+ class. Below the scale, a white box contains the number "21" and the text "kWh/annum".

At the bottom, there are four icons in rounded rectangles: a fan (energy efficiency), a lightbulb (energy efficiency), water droplets (water efficiency), and a speaker (noise level). Each icon has a scale below it labeled "ABCDEF" or "ABCDEF" with "55 db" for the noise level.

At the bottom left is the text "65/2014" and at the bottom right is the vertical text "20017674".
