

The image shows a standard EU energy label for a refrigerator. At the top left is the European Union flag. To its right, the word "ENERG" is written in large letters, with "енергия · ενεργεια" below it. Further right are four circular icons: "Y U A" and "IE IA". Below this header is a small image of the refrigerator and the model number "CH9T6226XGB".

The main part of the label features a vertical scale of energy efficiency classes from A+++ (dark green) at the top to D (red) at the bottom. A black arrow points to the A+ class, indicating the refrigerator's energy efficiency.

Below the scale, a white box contains the number "23" and the text "kWh/annum", representing the refrigerator's annual energy consumption.

At the bottom, there are four icons in rounded rectangles: a fan (energy efficiency class A B C D E F G), a light bulb (energy efficiency class A B C D E F G), water droplets (energy efficiency class A B C D E F G), and a speaker (noise level "55 db").

The bottom left corner of the label has the text "65/2014" and the bottom right corner has the vertical text "20017676".
